Is Factoring right for my business?

You should consider Factoring if your business:

- Sells products or services on credit to other businesses, generating invoices for payment
- Has an annual sales turnover typically above £750,000
- Would like support in managing credit control activities

If you already have a well-established credit control function in-house, then you may find that **Invoice Discounting** is a better fit for your business. Ask for our Invoice Discounting Factsheet or speak to your Aldermore contact to find out more.

How does it work?

1. We'll advance an agreed percentage of your outstanding invoices, typically up to 90% of the value.
2. When you send us your invoice (usually electronically), we'll release the funds.
3. We will then chase the customer for payment on your behalf, with the funds being paid directly to Aldermore.
4. When your customers have made payment, we'll release the remaining funds to you, minus our fee.
5. We'll then recalculate the funds available to you after every new transaction – so you always know how much working capital you have available.

How much will it cost?

We'll work with you to design a funding package that perfectly suits your business, agreeing all costs upfront.

Our charges are competitive and totally transparent, and will be outlined in your facility offer letter. You'll also receive a Client Guide, which will detail any additional fees that would apply for services you may need or use. An arrangement fee will also normally apply.

Why choose us?

Flexible & transparent with an upfront made to measure proposal for your business, that includes a clear structure of your funding and pricing, so you know exactly what you're getting.

Day to day support from dedicated locally based Relationship Managers who are on hand to help you as little or as much as you need.

As part of your team we understand business isn't always straightforward. We really get to understand your plans and ambitions, which means we can support both steady growth and ambitious go getters.
